## Patrick H. Jones

b.1987 | London, UK

패트릭 H 존스의 작업은 부재, 통제, 그리고 내성이라는 주제를 집중적으로 탐구한다. 그의 작품은 슬픔이 존재론적인 사고로 발전하고, 아버지의 죽음을 받아들이며 자아의 끊임없는 발전을 고찰하는 동력으로 작용한다.

Patrick H Jones' practice delves into themes of absence, control, and introspection. Grief propels the work into existence, acting as the force that drives Jones to contemplate his ever-evolving sense of self as he grapples with the passing of his father.
